Sub: To conduct a Seminar/Career Counseling 'Career Options in Govt. Sector'

Respected Sir

It gives me pleasure to write in to you, As a conscious and active member of the education fraternity - with presence in many metropolitan cities of the country and having guided more than a million banking students in the past decade - I would like to bring to your notice and concern a couple of facts that have been meticulously prepared by the Research and Development department of VANIK Education.

The research has shown a disturbing trend prevalent among the students; where in majority of the students settle for much less - in their career - than what they can actually achieve. In the long run, this outcome eventually broadcasts a depressed image about the career prospects in the minds of future aspirants.

Delving into the matter, we have realized that there are 2 main factors driving this (yielding) tendency prevalent in the community:

1. Lack of information and knowledge about the scopes in the Govt. sector.
2. Underestimation of oneself, thus losing trust and motivation.

VANIK Education requests an audience - for a seminar - with your brilliant students with an aim to make them aware of the perks of various banking-related career options and also motivate them to become the backbone of our nation's scientific and technological development.

The seminar - titled '**Career Options in Govt. Sector**' - would be presented by, an expert speaker on career progression and a faculty of **VANIK**, wherein he would give the audience an insight into almost all the career options possible for an aspirant and at the same time infuse the audience with the confidence to move ahead and achieve big outcomes in life.

This seminar is a part of our Corporate Social Responsibility and is not a paid event. Our aim is to give back to the society a pool of talented and resourceful bankers and officers.

I request you as a part of the education fraternity to work with us to ensure the development and growth of the banking and technology domain in India. I hope you will be kind enough to allow an audience with your students for the seminar. For any further queries or acceptance of the program please feel free to connect with the undersigned:

We are looking forward for an early response. Thanking you in anticipation.

Regards,

Mr. Tushar Kanta Dash
Marketing Manager.

Algebra

This module contains Surds and Indices, Basics of Polynomials, Linear Equations in One, Two Variables, Quadratic Equations and Progressions (AP, GP & HP). Aspirants of SSC Exams are advised to go through the basic concepts of algebra.

4. Geometry and Mensuration

In geometry we have topics like basics of Lines, Angles, Triangles, Quadrilaterals, Circles & their Properties, Area & Perimeter of various figures like Triangle, Quadrilateral, Circle, etc. and Volume of figures like Cylinder, Cone, Sphere, Hemisphere, etc. Students should go through the basic theorems and the formulae to find the area and the volume of different figures. Also one should know where to use the concept of surface area and where to use the concept of total area. Questions on sectors and segments are also important. Questions where one has to find the shaded area are the most important from this module. Aspirants of SSC Exams are advised to go through in depth coverage of Geometry & Mensuration. In Banking & Railway Exams questions are generally asked from Mensuration.

FULLY ORGANISED PARKING PLACE

5. Modern Mathematics

This has topics like Permutations & Combinations, Probability (examples are throwing of dice). From this module two or three questions of moderate to high difficulty level will be asked in the Banking examinations.

6. Data Interpretation

The questions in this section are based on tables, bar charts, line graphs, pie charts & case studies. To score well in this section one has to interpret the data given and drawing the relation between the numbers. Learn the various kinds of graphs like bar charts, tables, graphs etc.

- Learn the type and nature of graph involved in a particular problem as it can signal about the right answer
- Learn the basic rules of simplification, calculations and approximation
- Practice of doing the fast calculating with proper accuracy
- Learn the concept of average and percentage very well
- Develop the appropriate understanding of the concept "Ratio and Proportion".

The whole of data interpretation problems hinges upon calculating the average, percentage and ratios of the variables. Carrying out the fast and accurate calculations play a big role here which can be developed by only practicing more and more with proper time management skills.

SUBJECT-WISE PREPARATION STRATEGY

REASONING ABILITY

This section includes the questions of both verbal and non-verbal types. Verbal reasoning consists of mainly Coding-Decoding, Analogy, Series, Alphabet Test, Syllogism, Input-Output, Puzzle, Statement-Argument, Statement-Conclusions, Statement-Course of Action, Statement-Assumption, Cause and Effects etc. On the other hand, the Non-verbal section of reasoning asks the questions on series, Analogy, finding out the missing figures etc.

The preparation of Reasoning test does not require any special kind of knowledge or exposure as it tests the mental alertness and logical skills of the aspirants. To be an expert in this particular section one needs to understand the nature of question first by having a look on the recently held examination paper and then starts preparation on that base. The aspirants are suggested to take the time-bound test as much as they can and for this they have to develop the skills of time management that will train them to consume how much time for what type of questions.

The candidates must go through such a book having the complete coverage of the topics asked in the reasoning section. They must need to know the essential basics of each topic so that they will feel comfortable while solving the questions in this section.

In doing the questions of non-verbal reasoning the candidates must have sharp eye on the angular movement of the figure concerned with the particular problem. By considering the position, direction, size etc. of the components of the figure concerned can sometimes leads the right option directly. Mastering the reasoning subject can save a lot of precious time that can be spent in doing the other remaining section of the test. Regular and sufficient practice can only serve the purpose.

ENGLISH LANGUAGE

This section mainly consists the passage-based questions, common errors in sentences, Rapid Fire, Antonyms, Synonyms, Sentence Arrangement, Idioms and Phrases, Sentence making and choose the best answer.

To do this section, the candidate must have a good command over the English Language and for this, they are suggested to strengthen their vocabulary and rapid readings skills.

Mainly, the rest of English Language like to see how well you know English and your English language ability would be tested through the question or grammar, vocabulary, sentence completion of the passage etc.

To prepare the subject English, you are suggested to inculcate in yourself the habit of

- Rapid reading of long stories or passages in the daily newspaper.
- Enriching word power along with idioms & phrases, antonyms and synonyms and lot others.
- Learning the rules of parts of speech in grammar and applying those while practicing the exercises based on them.
- Learning the rules of tense along with all its twelve parts as the concept of tense is considered backbone of the English language.
- Applying the new and recent words of English Language in your writing exercises.

SCHOLARSHIP TEST-2021

Name

TOTAL NO. OF QUESTIONS : 60

Date : 05/01/2021

[Time : 1 Hour]

No. of Printed Pages : 6

[Total Marks : 60]

INSTRUCTIONS

1. All questions are compulsory.
2. All questions carry one mark each.
3. The question paper contains 60 questions.
4. Questions must be answered on Objective Response Sheet (ORS) by marking the appropriate bubble (marked A, B, C, D) using HB Pencil/Pen against the question number. Each question has only one correct answer. There will be no choice for further edit.
5. There will be NEGATIVE marking. For each wrong answer, 1/4 of the full marks of the question will be deducted. More than one answer marked against a question will be deemed as an incorrect response and will be negatively marked.
6. Read carefully the instructions given on the answer sheet supplied and indicate your answers accordingly.
7. Kindly make the necessary entries on the answer sheet only at the places indicated and nowhere else.
8. Mobile phones, pagers or any other communication device are not allowed inside the examination hall.
